

SAFE INSITES

FEATURING:

DeLise Cuadra, Inspire Brands

Overview

- New visualization and reporting framework
- New safe API designed to collect safe information in real-time directly from the managed service provider
- Presented concept to 8 customers

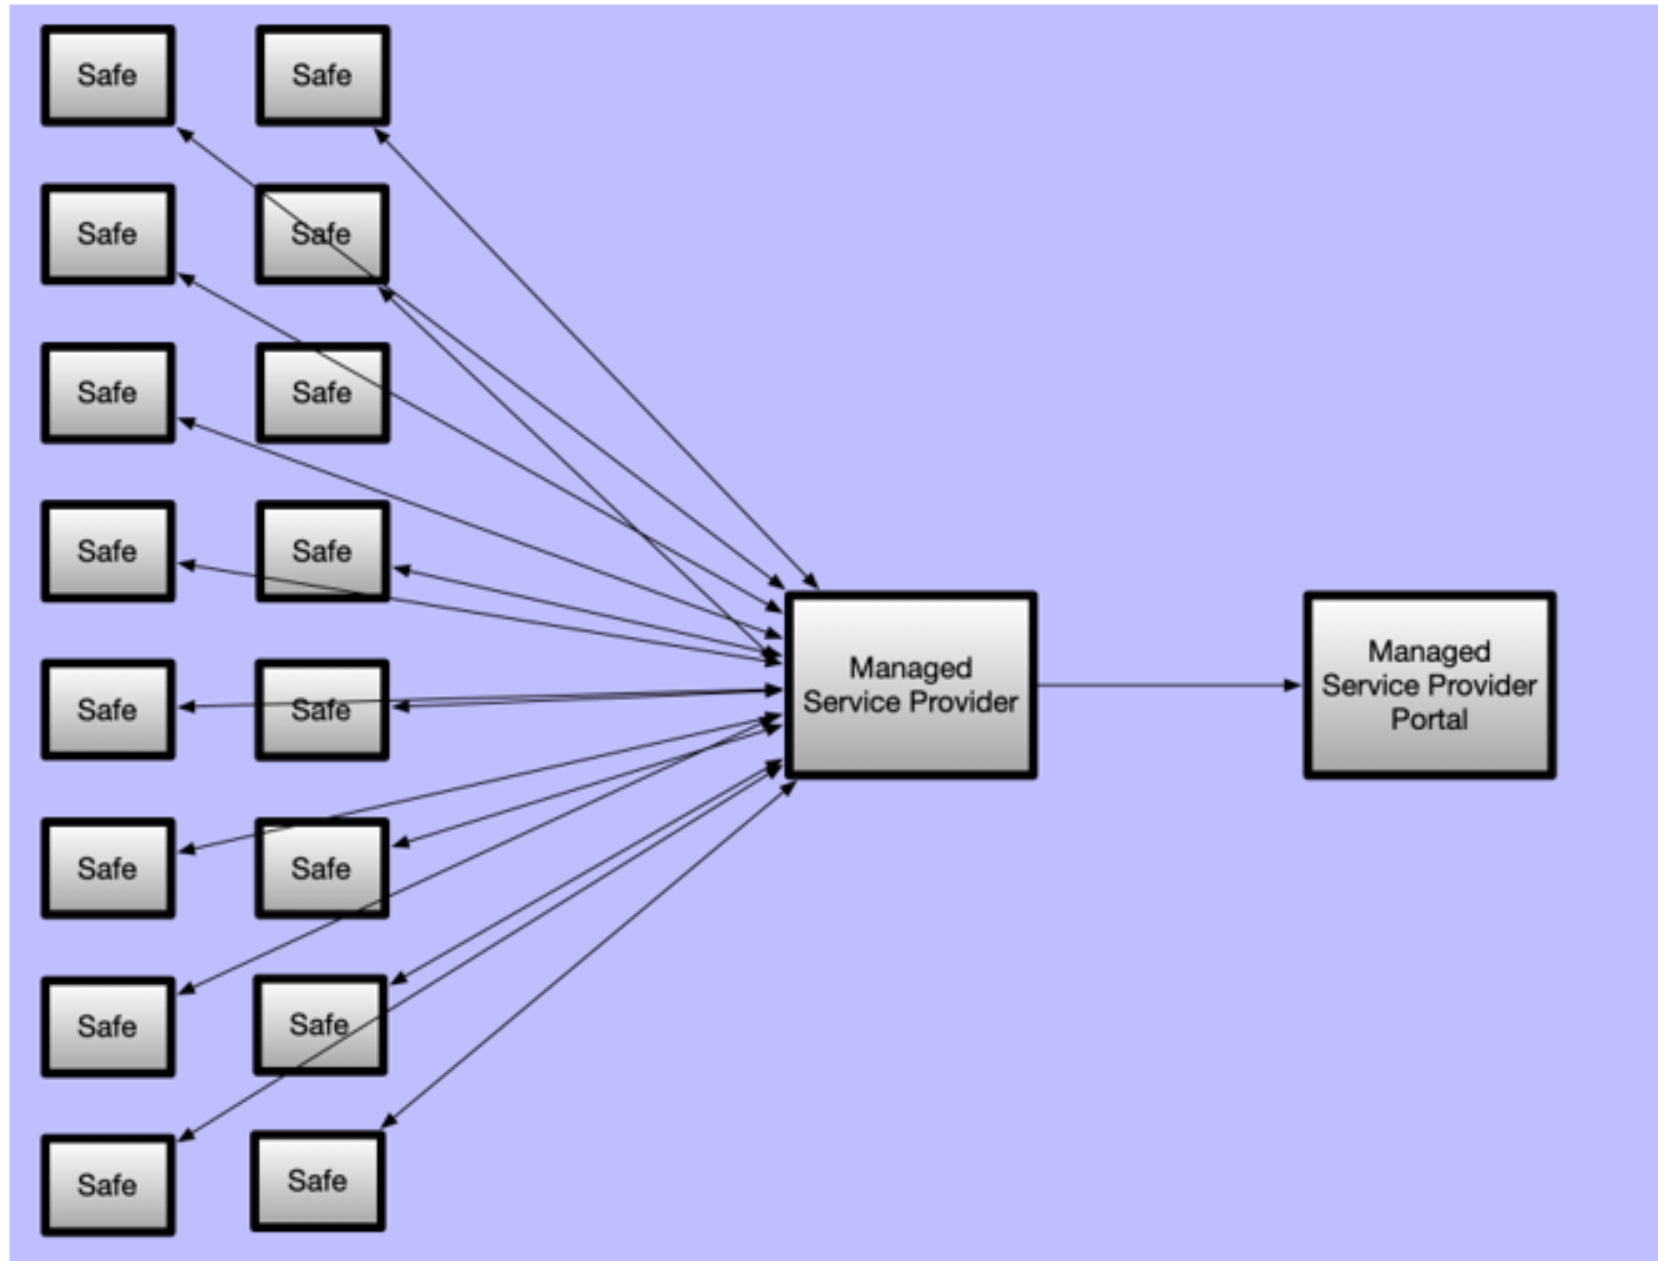

History of DTS and Safe Management

- DTS Connex began interacting with Smart Safes more than 4 years ago
- Help support independent smart safe model as an option
- Record safe deposits in DTS
- Transmit provisional credit information to banks
- Manage safe firmware

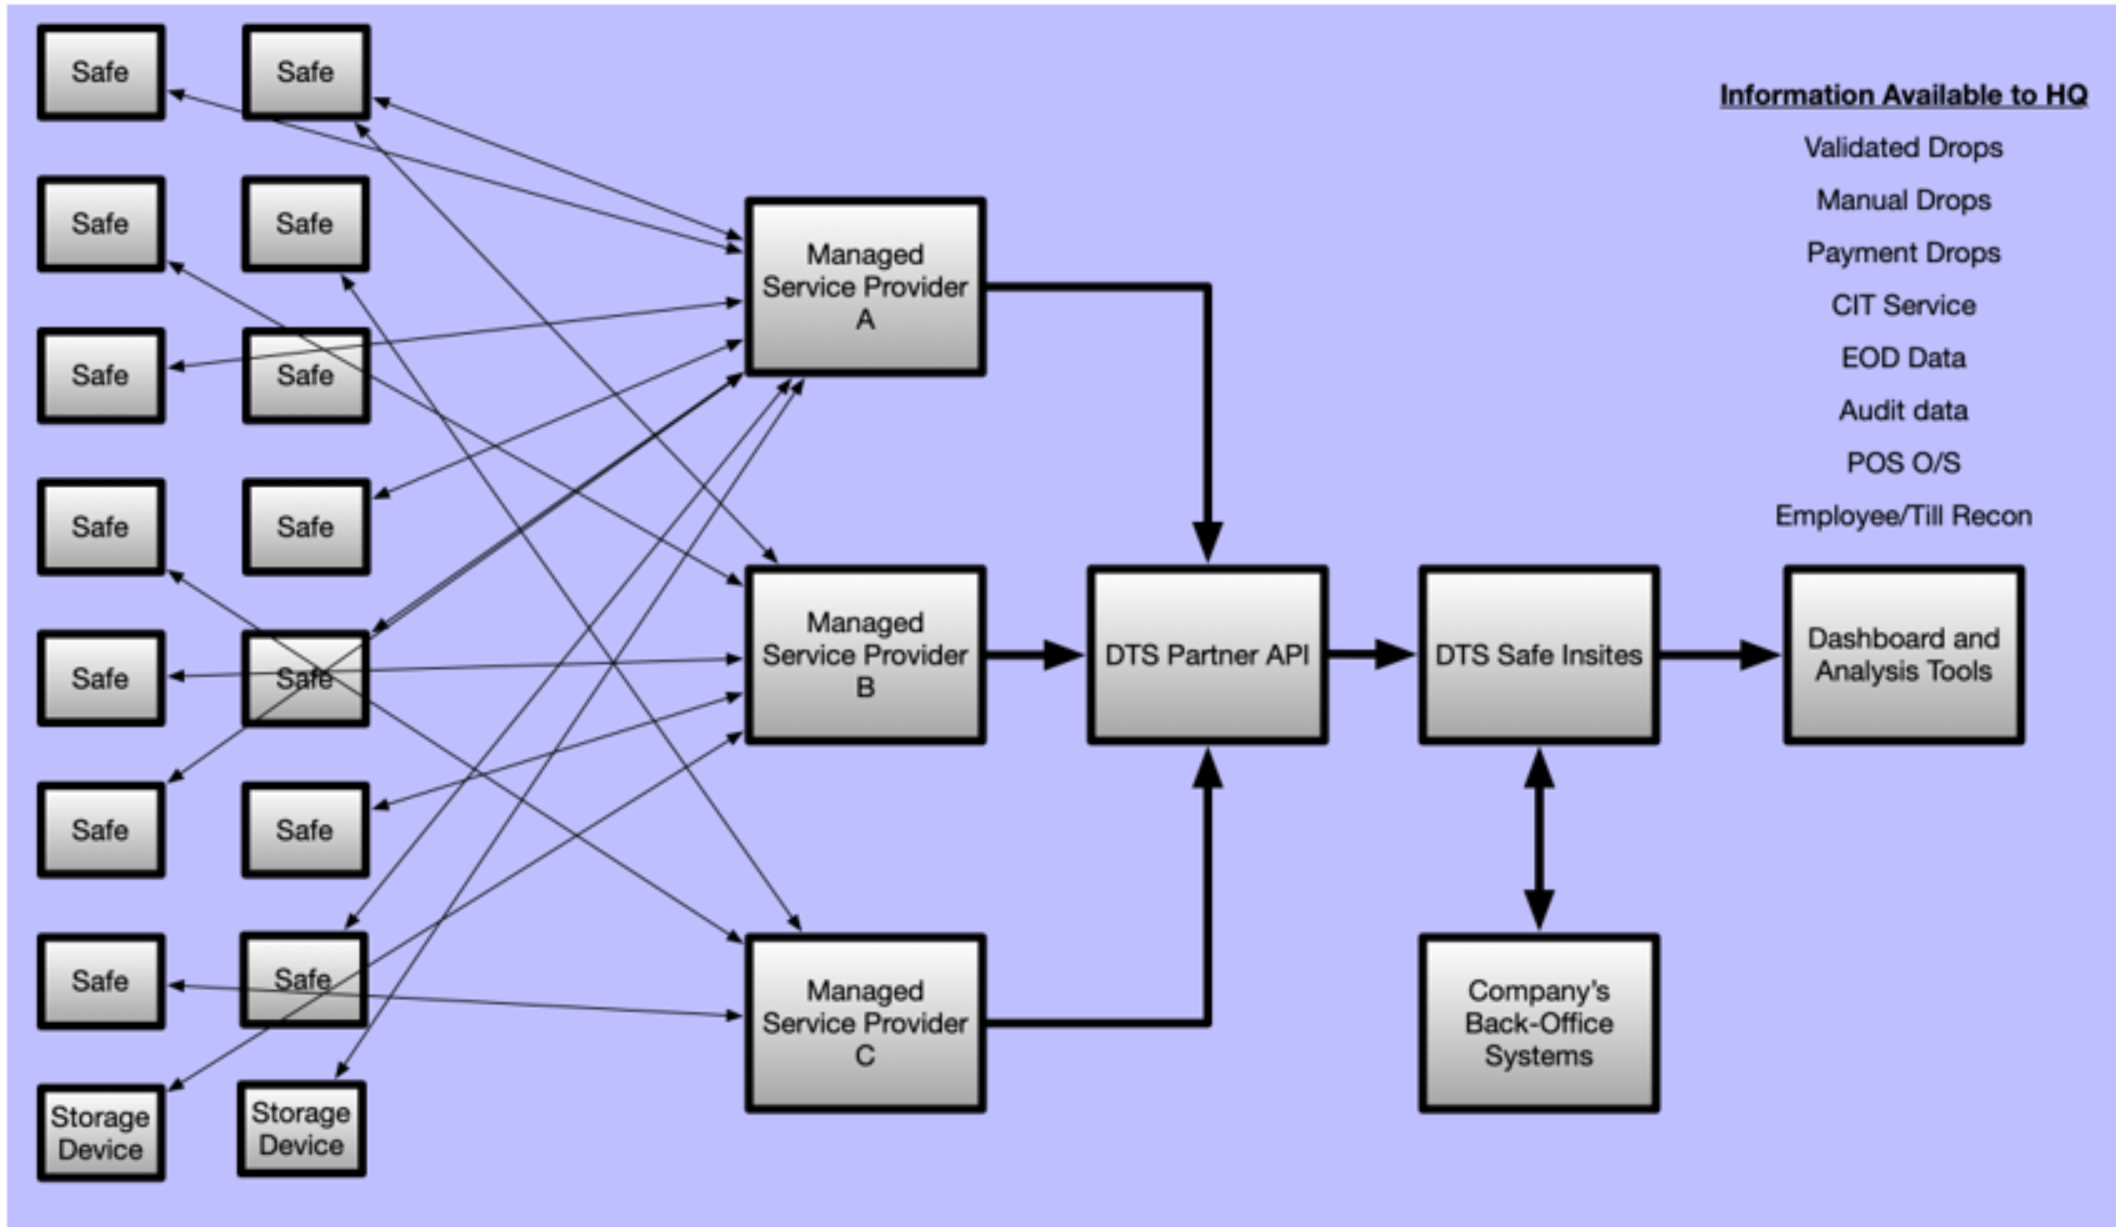

Smart Safe Trends We See

- Smaller devices
- More organizations offering smart safes
- Desire to use multiple Managed Service Providers (MSP)
- Different MSPs in different brands (consolidation)
- Desire to manage MSP service level agreements
- Need to ingest safe data in back office systems
- Eagerness to match safe data with sales data (POS) and employee register data

DTS InSites Notifications

Notifications enable emailing of personnel when certain types of events occur on DTS Safe InSites.

<input type="checkbox"/>	Safes Not Communicating	Enter the number of days since the last communication.	<input type="text"/>		
<input type="checkbox"/>	Safe Balance over allowed amount	Not Applicable			
<input type="checkbox"/>	Safes Nearing Capacity	Percentage of capacity.	<input type="text"/>		
<input type="checkbox"/>	Missed Safe Service	Not Applicable			
<input type="checkbox"/>	Safe User POS Over/Short	Enter the minimum amount of the over/short that you wished to be notified about	<input type="text"/>		
<input type="checkbox"/>	Excess Small Bills	Enter the minimum percenta of the number of 1s and 5s that make up the safe wh you want to be notified	<input type="text"/>		

What We Hope To Achieve With Safe InSites

- Help our partners use a variety of devices and device types
- Offer a single location that aggregates safe information from multiple providers
- Provide actionable information that enables better management of safe devices and providers
- Receive information from Back Office Systems to enable POS O/S and employee drop reconciliation
- Easily share information with Back Office Systems, so companies can use their data more effectively.
- Share information throughout the organization for more effective management of information.
